For attention of Ms Owusu-Ansah

Dear Madam

**Re: APP/26/00257 At Langstone Technology Park, 2B Langstone Road,
Havant, PO9 1SA**

**External condenser unit installations along east and south elevations
along with south access pathway revisions.**

Thank you for consulting the Highway Authority on the above planning application. The Highway Authority wishes to make the following comments.

This proposal will make changes to the southern access pathway providing access to various industrial units as a result of the placement of various A/C units along the footpath. These proposals will subsequently make a minor adjustment to the pathway running along the eastern side of the building to allow pedestrians to walk past several of these new units. The two A/C units to be built to the north are located on an existing slab which already houses two existing units. Subsequently, these changes will not have any impact on the footway given it is already proposed to be built around this slab.

Recommendations

These proposals have been considered and in review are not anticipated to result in a significant impact to the safety or operation of the local highway network. Therefore, the Highway Authority have no objection to the proposals.

Yours faithfully,

Director of Universal Services
