For attention of Henrietta Owusu-Ansah

Dear Henrietta,

Re: APP/26/00188 At 32, New Lane , Havant, PO9 2NG

Site alterations comprising the installation of plant and associated works to facilitate Electric Vehicle charging infrastructure

Thank you for your consultation on the above planning application. The applicant is seeking consent to undertake minor alterations to the car parking layout to allow for the provision of substations to facilitate future EV charging connectivity. The proposed changes to the site layout are shown within drawing 8085-SMR-15-ZZ-DR-A-2003-S4-P1 (proposed site plan).

The Highway Authority have reviewed this drawing and are satisfied that the proposed substation locations do not lead to any loss in parking across the site. The proposed locations would also not appear to impact achievable visibility within the car parking layout. Should any loss of parking be required then the Highway Authority should be reconsulted for further comment.

The Planning Authority should be satisfied that the existing car parking spaces are of an appropriate width to accommodate any future EV charging infrastructure.

Having regard to the above the Highway Authority provide no objections to this planning application. I trust that the above is clear but please do not hesitate to contact Sophie Osborne on the above contact details should you require any further clarification.

Yours faithfully,

Director of Universal Services
