RECEIVED

Dear Sir/Madam,

Planning Application APP/24/00890

I write in support of this application for flood defences for homes in Mill Lane and Harbourside. The scheme is funded by homeowners in these roads, and is mindful of taking a sensitive approach to environmental concerns.

I understand there will be some noise, dust, inconvenience etc to get these crucial works completed, but the long term security of these homes vastly outweighs these concerns.

I hope you will be able to approve this application in a timely manner.

Yours faithfully,
