Condition 4

The NSL document entitled 'Burger King Park Road South Havant PO9 1ER | Intercom Noise Assessment | Ref: 93225/INA' (dated 31st March 2026) has been reviewed.

The report, methodology and findings are considered to be reliable.

The report advises that noise from the intercom was inaudible by the assessor at the facade of the nearest receptor during the survey. Acoustic calculations demonstrate that predicted noise level from the intercom would be 22dB below background noise levels.

It is recommended that the condition can be discharged, based on the submitted information.
