

Planning Application Reference: APP/26/00194

Description: Discharge of conditions 10 and 16 of Planning Permission APP/21/00399.

Location: Waterloo Park, Elettra Avenue,, Waterlooville

Condition 10

I have reviewed Revision A of the Waterlooville Servicing and Deliveries Management Scheme.

Whilst it is stated that deliveries would occur during trading hours, these hours have not been specified within the submission.

The applicant is therefore requested to confirm the proposed trading hours for the premises to allow for determination of whether the submitted information is sufficient to discharge the condition.

In the absence of defined hours, it is not possible to determine whether deliveries and servicing activities may occur during sensitive periods. Delivery vehicle movements and loading activities using roll cages could result in significant noise emissions at sensitive times.

Night-time (or early morning) deliveries would not be supported without the submission of a robust acoustic assessment, demonstrating that such activities would not give rise to an adverse impact on nearby residential receptors.

Kind regards,

Craig Milligan
