Condition 5 - Noise and Vibration and Rehousing

The submitted Noise Insulation and Temporary Re-Housing Policy satisfactorily meets the requirements of Condition 5 Parts B and E and provides appropriate commitment and means to deliver Parts C and D. The document sets out clear eligibility criteria aligned with BS5228, includes provision for notification of affected receptors, and defines the scope of mitigation measures and implementation process. Part A is addressed separately through the submitted NVMP. I am satisfied that Condition 5 can be discharged.
