To whom it may concern,

In response to the planning application with Planning Portal reference **PP-14956240**

As part of this Prior Approval: Change of use application, it should be made aware that this application has been submitted to follow the current Prior Approval Application (Havant Borough Council reference **APP/26/00092**), which was received on 11 February 2026.

Following discussions between ourselves and the assigned Planning Case Officer for the live application, Tina Pickup, we are submitting this application to be considered alongside the live application (**APP/26/00092**) in which 2no. additional residential units are being proposed with the 7no. residential units that were originally proposed. These two applications relate to the internal layout changes as part of the Prior Approval: Change of Use.

It should be noted that as part of our discussions with Tina Pickup we will also be submitting a Full Planning Application that solely deals with the external changes to the existing building. This future application will aim to improve the overall visual impact of the proposed plot against its context, including alterations to existing openings, external cladding materials and other details.

We have been requested by Tina Pickup that upon submission of this application and the external changes application that we make the validation team aware that these will need to be directed to the same officer as they will all need to be tied in with each other to make the development lawful if approved.

Kind regards,

Mark Phelps
