DESIGN NOTE
The existing main hip ended roof slope is converted into a plain north gable ended detail. The ridge remains unaltered. The existing rear first floor dormer is extended along the new continuous slope in the same form as the existing. At the same time the existing conservatory is demolished and instead a new full width ground floor rear extension is constructed with a flat roof and a lantern light. The extension is 3 metres in depth.

Revision C: 1st June 2026
The drawings showing the first floor roofs only removed at the request of the LPA

Revision B: 22 May 2026
Obscure glass to be fitted to new north facing first floor window. To all glass No opening below 1700 mm from internal first floor level

Revision A: 14 April 2026
