Dear Sir or Madam

**Re: Planning Inquiry about
Rook Farm APP/21/01/1434**

I write to inform you that I am totally against the building of 300 new home on the proposed new homes on this Island on the grounds following:-

Traffic and Highway Safety:-

The Development is expected to introduce approximately **600** additional cars into the local area, exacerbating congestion on the **A3023** the islands only road on and off, and increasing the risk of accidents.

To date I have missed several hospital appointments due to heavy congestion.

Infrastructure:-

The extra stress and strain put on an already over Whelming of:-

Schools, Doctors, Water and Sewage, are already operating at there limits.

I recently waited 34 days to get an appointment to see a Doctor.

I do hope you will give due consideration to my objections to this Planning Inquiry and hope you will arrive at the same conclusion that Rook Farm should remain as is on the grounds of the Environmental Impact will undoubtedly have to this Island.

It should be recognised that this island is already running at full capacity
I urge the Planning Inquiry to consider the potential consequences of approving Rook Farm Plans..

Yours Sincerely....
