For attention of Mr Lakhan

Dear Sirs

Re: APP/25/00895 At Pipeline from proposed reservoir near Middle Park Way to Bedhampton Pumping Station, Meyrick Road, Havant

Discharge of Conditions 5, 27 and 32 and part Discharge of Condition 30 of Planning Permission APP/24/00405

Thank you for the opportunity to comment on the above application. The Highway Authority did not request condition 30 however there is overlap in its provision with the requirements of the CTMP and therefore the Construction Near Schools document has been reviewed in relation to section 2.6 only.

The Highway Authority can confirm that in review of the CTMPs and S278 submissions relating to works on the highway are considering the routes to schools, suitable diversions arrangements and for safe and suitable access for all users including school children. The example positions reflected in the Construction near Schools document is not necessarily the final agreed arrangements and the relevant CTMP should be referred to for compliance with this matter. The principles of the CTMPs addressing interactions between school users and the works however is agreed and appropriately set out within the Construction near Schools Document.

I hope the above information is useful and whilst the Highway Authority did not request this condition consider that the interaction between this condition and associated CTMP conditions does not give rise to any concerns therefore raise no objection to the discharge of condition 30.

Yours faithfully,
