

The waste manager at Norse has specified that the bins would need to be presented on collection days to the rear of the property along Tidworth Road.

1. Access Requirements:

Access/Service Roads need to be capable of taking a 26 tonne Refuse Collection Vehicle (RCV) and allow vehicle to reverse close to bin store or containment area. Width of RCV 2.8m, maximum length 11.3m.

Drop kerbs also need to be provided to allow easy transfer of bins from store area to vehicle.

No bins to be pulled or waste carried more than 25 metres.

2. Bin Stores:

Almost all bulk bins utilised by the Authority are approximately 1.26 metres wide, therefore doors to stores need to be of 1.8 metres width to enable all types of container to be easily removed and returned.

A standard depth of 1.0 metre also applies to the majority of bulk bins, and bin stores therefore need to accommodate the required of containers measuring 1.26m x 1,0m.

NB: In 2026 food waste collections will be introduced, so consideration must be given to capacity for additional containers. This will be 1x 140 litre bin per 6 households.

3. Bin requirements

Note: Factors such as family size and age of occupants can influence the number of bins required and it is therefore advisable that the waste Management team be asked to confirm each calculation if possible.

4. Bin sizes for Information:

- a) 140 litre (plastic) - 1065mm tall x 485mm wide x 550mm deep
- b) 240 litre (plastic) - 1075mm tall x 580mm wide x 725mm deep
- c) 660 litre (metal) - 1310mm tall x 1260mm wide x 730mm deep
- d) 940 litre (metal) - 1500mm tall x 1020mm wide x 975mm deep
- e) 1100 litre (metal) - 1370mm tall x 1260mm wide x 990mm deep

Kindest Regards
