

Subject: APP/24/00292 57 London Road, Cowplain, Waterloooville

Hi Abdi,

This is the final comment from me on the application, relating to BNG. This was sent to David on 21 April 2026.

If you are minded to grant permission, I would recommend that all BNG requirements are secured through condition. Recommended condition wording is provided below.

A Biodiversity Gain Plan shall be prepared in accordance with the Biodiversity Net Gain Small Sites Metric (Stephen Andrews, 26 May 2025) and must include:

- (1) *information about the steps taken or to be taken to minimise the adverse effect of the development on the biodiversity of the on-site habitat and any other habitat;*
- (2) *the pre-development biodiversity value of the on-site habitat;*
- (3) *the post-development biodiversity value of the on-site habitat;*
- (4) *any registered off-site biodiversity gain allocated to the development and the value of that gain in relation to the development;*
- (5) *any biodiversity credits purchased for the development; and*
- (6) *any such other matters as the Secretary of State may by regulations specify.*

The development shall not commence until a Habitat Management and Monitoring Plan (HMMP), prepared in accordance with the approved Biodiversity Gain Plan, has been submitted to, and approved in writing by, the local planning authority. The HMMP shall include:

- (7) *a non-technical summary;*
- (8) *the roles and responsibilities of the people or organisation(s) delivering the HMMP;*
- (9) *the planned habitat creation and enhancement works to create or improve habitat to achieve the biodiversity net gain in accordance with the approved Biodiversity Gain Plan;*
- (10) *the management measures to maintain habitat in accordance with the approved Biodiversity Gain Plan for a period of 30 years from the completion of development; and*
- (11) *the monitoring methodology and frequency in respect of the created or enhanced habitat.*

Notice in writing shall be given to the Council when the:

- (12) *HMMP has been implemented; and*
- (13) *habitat creation and enhancement works as set out in the HMMP have been completed.*

The created and/or enhanced habitat specified in the approved HMMP shall be managed and maintained in accordance with the approved HMMP. Monitoring reports shall be submitted to local planning authority in writing in accordance with the methodology and frequency specified in the approved HMMP.

Reason: To ensure the development delivers a biodiversity net gain on site in accordance with Schedule 7A of the Town and Country Planning Act 1990.

If you have any queries, please don't hesitate to contact me.

Kind regards,

Tristan
