

Thank you for consulting Sport England on the above application.

Non-statutory planning advice

The proposed development does not fall within our statutory remit (Statutory Instrument 2015/595) and we have not provided a detailed response in this case, but would wish to give the following advice to aid the assessment.

General planning guidance and advice can be found on our website:

Loss of sports facilities

If the proposal involves the loss of any sports facility, then full consideration should be given to whether the proposal is in accordance with the National Planning Policy Framework (NPPF), is in accordance with local plan policies to protect sports facilities, and whether it meets any approved Playing Pitch Strategy or Built Sports Facility Strategy that the local authority has in place.

New sports facilities

If the proposal involves the provision of a new sports facility, then consideration should be given to whether the proposal is in accordance with the NPPF, is in accordance with local plan policies to protect sports facilities, and whether it meets any approved Playing Pitch Strategy or Built Sports Facility Strategy that the local authority may have in place. If a facility is fit for purpose, such facilities should be designed in accordance with design guidance notes produced by the National Governing Body.

Meeting the needs of new housing

If the proposal involves the provision of additional **housing**, then it will generate additional demand for sports facilities. If the local authority does not have the capacity to absorb the additional demand, then new and/or improved sports facilities should be provided in accordance with any approved local policy for social infrastructure, and priorities set out in any Playing Pitch Strategy or Built Sports Facility Strategy that the local authority has in place. Our Sports Facility Calculator is a tool that can be used to estimate the additional demand for sports facilities from a new population and convert that demand into sport facility requirements with which the local authority can meet. The tool is available on the link below.

Active Design

In line with the Government's NPPF (including Section 8) and PPG (Health and wellbeing section), considering how new development, especially new housing, will provide opportunities for people to lead healthy lifestyles is a key part of the planning process. Sport England's Active Design guidance can be used to help with this when developing or assessing a proposal. The guidance sets out key principles to help ensure the design and layout of development encourages and promotes participation in physical activity.

Planning conditions

We maintain a list of model planning conditions covering issues such as - creation of new playing fields, sports lighting and community use.

Community Use Agreements (CUA)

Central Government wishes to see the availability of sports facilities to the wider community when they see schools being at the heart of local communities. To help with this ambition we have developed
