Grounds for Application

Is the proposed operation or use

- ☒ Permanent
☐ Temporary

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

The proposal is to alter the roof of an existing rear extension. No increase in the footprint of the extension is proposed, and the works are limited to changes to the roof design.

The existing rear extension is already in place. The proposal does not extend the building further beyond the existing rear wall, nor does it increase its width.

Under Schedule 2, Part 1 of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended), alterations to a dwellinghouse are permitted development provided they comply with the relevant limitations and conditions. The proposal has been designed to comply with these requirements, including ensuring that:

the highest part of the altered roof does not exceed the height of the existing dwellinghouse;
the materials used are of a similar appearance to those of the existing house, where required; and
no other relevant permitted development limitations are breached.

As the proposal comprises only an alteration to the roof of an existing extension and does not create additional enlargement beyond the applicable permitted development limits, it is considered to constitute permitted development. A Lawful Development Certificate is therefore sought to confirm the lawfulness of the proposed works.
