Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

4. Biodiversity net gain strategy

4.1 Is the relevant date for the pre-development biodiversity value the same date as the planning application?

☒ Yes
☐ No

4.2 If no, what earlier date did you agree with the LPA?

N/A

4.3 How have you met the guidance on 'what counts towards your BNG'?

Find out what you can count towards a development's BNG

The guidance on what counts towards BNG has been met for this scheme. The scheme will use on-site habitat creation to contribute to achieving a >10% gain in the baseline biodiversity value of the site. The BNG will not be delivered through any other schemes.

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

No irreplaceable habitats are located within the development boundary.

The PEA (Arun Ecology Ltd, 2026) provides mitigation measures for HPI located in close proximity to the development boundary where required.

The BNG hierarchy principles of avoiding habitat loss, enhancing baseline habitat or compensating through the creation of new habitat has been applied to the design of the development.

4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

☒ Yes
☐ No

4.6 How will you achieve the target net gain percentage?
