

First of all our apologies if we need Planning Permission to do this but my wife and I are at the end of our tether due multiple issues living parallel to the Havant Road.

- We have issues such as drunks [REDACTED] depositing empty bottles in to our garden.
- We have People climbing over my fence late at night to get on [REDACTED] Trampoline.
- People exposing themselves from the bus stop opposite from 700 bus [REDACTED]
[REDACTED]
- Several Accidents on the A27 causing closure to the Bypass and the A259 becoming the A27, and people peering into by bedroom and lounge while traffic is at a standstill.
- Blue Emergency Lights from Ambulances and Police Cars shining late at night especially in the Winter Months into our Bedroom or Lounge.
- Council not trimming the weeds properly on the other side of the fence of which end up growing in my garden, and most weekends having to the clearing the overflow.
- The new fence will now prevent this happening.
- Over 2 million Cars and Lorries using the A259 Havant daily.

Our initial thoughts are that when Planning was granted for the Bungalows to be built, no consideration was taken into account for the noise levels of the traffic, as of today the privacy of a main garden so close to the A259, especially when the A27 bypass is closed due to an accident. Although not known precisely, over 2,000,000 vehicles including Lorries and cars, passing our Bungalow a day.

Trespassers jumping over the fence, and a crossing, bus stop and access to the New Housing estate with traffic lights all within a 25 m length.

Since we have raised the fence we have noticed a difference in sound albeit a little bit better, from the crossing, emergency vehicles and the 700 bus plus security wise anyone would struggle to get into our garden and climb the fence.

This has not affected anyone apart from the By law in place. We would understand if this was a boundary wall between 2 gardens, but the A259 is busier than ever of which no one could predict but our privacy is something that needs to be addressed.
