

For the attention of

Planning Application APP/26/00332

Havant Borough Council

Dear Sirs,

I wish to add my objections to the Stonebond proposed development at Padnell Grange.

[REDACTED] I am well aware that in periods of intense heavy rainfall the **local drains can exceed capacity and cause localised flooding**. We know that with changes to our climate that heavy rainfall periods will be more frequent. As Galaxie Road is situated at the bottom of the local slopes residents here will be more vulnerable to increases in storm drainage and excessive soakaways. An extra 90 households in the area will put even more pressure on the drainage system.

I, like many who have already objected, feel that **increased traffic in the area is undesirable** as I experience the current congestion [REDACTED]. It needs to be also recognised that Padnell Road is the main place for **school coaches to stop** for their regular field trips which are essential and commendable.

St. Wilfrids, the local church in Padnell Road is also very busy every day with people attending services and club meetings or classes. These include Art, Ballet, Bridge, Pilates, Guides, Rainbows and Brownies, Hants IOW Wildlife Trust, RSPB and Achoired Taste, the local community choir of over 150 people.

Yours sincerely,

[REDACTED]
