Hi Rob,

Following a review of the application documents, online imagery and GIS mapping I am content that the dwelling is not likely to be suitable for supporting protected species. There is no justification for requesting ecological information.

If you have any queries, please don't hesitate to contact me.

Kind regards,

Tristan

Service news:

The Council has now moved to a new software system for case management. The Planning Development Team is now working to acclimatise to the new system. The Planning Application portal is active, and we are receiving applications. We are not currently able to publicise any planning applications received since 31 July but are working closely with our system experts to resolve this issue as quickly as possible and hope to be able to publish by Monday 8 September. The Pre-Application Advice service has now reopened but with a reduced capacity as the team is still acclimatising to the new system. Please note, statutory timeframes will not be impacted, but you may be contacted to discuss an extension of time for the determination of any outstanding cases in light of the change. Services without a statutory timeframe may be subject to delays in response. We apologise for any inconvenience caused during this time and appreciate your patience as we make this change.
