Dear Mr Lakhan

Application to Havant Borough Council to discharge Condition 32 for Phase 1 of application reference APP/24/00405 (Havant Thicket Reservoir Twin Pipeline Scheme)

On behalf of Portsmouth Water's appointed contractor, Future Water MJJV Ltd, I am writing to formally apply to discharge planning condition 32 for Phase 1 of application reference APP/24/00405 relating to a Dust Control Method Statement.

The scope of Phase 1 is set out in the Phasing Plan (reference HTR-WAB-PI-ZZ-PL-W-0006) approved under application APP/25/00796, which discharged Condition 38 of application APP/25/00895.

Condition 32 was discharged under application APP/25/00895. However, the Dust Control Method Statement provided under that application specifically relates to Phases 2 to 7. The document was produced by Ward & Burke, the contractor on behalf of Portsmouth Water responsible for these phases of construction of the Twin Pipeline Scheme.

The Dust Control Method Statement hereby submitted relates to Phase 1, which covers the elements of the approved development contained within Bedhampton Pumping Station. This document has been produced by Future Water MJJV Ltd, the contractor appointed by Portsmouth Water for this phase of the development.

The details submitted under this application therefore do not supersede the Dust Control Method Statement submitted and approved under application APP/25/00895.

We trust that this Dust Control Method Statement in respect of Phase 1 of the Havant Thicket Reservoir Twin Pipeline Scheme (application reference APP/24/00405) is acceptable and would therefore be grateful for the LPA to confirm discharge of the condition at the earliest opportunity.

The application has been submitted through the Planning Portal as reference PP-15154309 and the application fee of £309 (plus the administration fee of £91) has been paid online. The Application comprises:

- This covering letter
- The application form
- Dust Control Method Statement: Main Pipeline Works – Phase 1 (Bedhampton) ref: HTR-RHD-PS-BP-MS-Z-0001 rev. P07

If you have any queries on the application or require any additional information, please contact me on 07941113896 or a.turner@adamshendry.co.uk

Yours sincerely

Andy Turner
Technical Director
