Please describe the non-material amendment(s) you are seeking to make

Amendment to the pumping station location and compound size shown on approved drawings 11010/110A (Engineering Layout), NLH/PUMP/01 and Hav-320, to reflect the revised adoptable pumping station arrangement shown on Drawing 7167-MJA-PSTN-XX-DR-C-001 Rev P1 and associated tanker tracking drawing 7167-MJA-PSTN-XX-DR-C-002 Rev P1.

Please state why you wish to make this amendment

The application seeks approval for a non-material amendment to the approved foul water pumping station serving the development. The amendment comprises a revision to the position of the pumping station and an increase in the size of the pumping station compound compared to that shown on the approved drawings.

The proposed amendment is required to accommodate the equipment necessary for an adoptable pumping station solution and to facilitate the future adoption of the foul water drainage network. The pumping station remains within the development site and continues to serve the approved residential development. No changes are proposed to the number of dwellings, site access arrangements, approved land use, or the overall form and scale of the development.
