Dear Sir /madam .

I am writing to strongly object to the above planning application on safety grounds. This property is situated on a very busy blind bend which already is used as an overspill carpark for the rest of Kings Rd.

Due to parked cars all the way down Kings Rd, one has to approach this bend on the wrong side of the road. The only hope we have of knowing if there is oncoming traffic before we turn across into our drive is the limited vision across the now 3ft fence. The house built on the end of the plot will already limit vision but an increase in the height of the fence would be putting residents at risk.

Kings Rd is now used as a shortcut to the school at Mill Rythe, and is often driven at speed by parents late dropping off

three children..

When pulling out from our driveway which is shared by 69 + 67 Kings Rd we have problems enough trying to see around parked Cars and sometimes larger vans, our vision is already impaired.

Also I believe that building a new house in the garden of another which was built 70 yrs plus ago along with the rest of the estate wrong.

We will have to put up with the extra problems of heavy lorries delivering building materials. with nowhere to park.

If there was meant to be a house here it would have been built 70 yrs ago with the rest of the estate.

yours sincerely
J Rogers.

MRS KYNIN ROGERS.

Resident here for 25 yrs. & in number 71.
