

Tree no.	Species	Observations	Discussion	Recommendations
1	Holm oak	Low branches over car park Low branches over footpath.	Low branches cause a hazard to users of the site and areas under the trees. Pruning of the low canopy to give a clearance will remove this hazard.	Prune lower canopy to give a clearance of 4m above ground level.
2	Horse chestnut	Low branches over car park Low branches over footpath.	Low branches cause a hazard to users of the site and areas under the trees. Pruning of the low canopy to give a clearance will remove this hazard.	Prune lower canopy to give a clearance of 4m above ground level.
