For attention of Ms K Taylor

Dear Madam

**Re: APP/25/00903 At Grainger Development Site Land West of London
Road Waterlooville**

**Discharge of condition 11 of Planning Permission APP/10/00828 - Phase
4 Infrastructure CEMP**

Thank you for your consultation on the above planning application. The applicant is seeking to discharge condition 11 which relates to the provision of a CEMP. In response to previous comments the applicant has submitted a revised CEMP dated August 2026 which the Highway Authority have reviewed and have the following comments to make.

The Highway Authority note that the section of the MUG that will be affected during the construction purposes is a permissive path and therefore falls under the responsibility of Grainger to manage. The wording within the CEMP is therefore considered acceptable.

Additional narrative has been provided regarding the need to apply for temporary closures to the PRow network as and when required for those affected PRow. This is considered acceptable.

Having regard to the above the Highway Authority are satisfied with the contents of the CEMP. The applicant is reminded that the CEMP is intended as a live document and if there are any concerns during construction with regard to the interaction of the PRow then additional measures may need to be incorporated to protect and ensure the safety of the general public and PRow users during this time.
