Subject: Ref: PR202610-115271 (APP/26/00679) - Havant Thicket Reservoir Site

Planning Application Reference: APP/26/00679

Description: Application for approval of all Reserved Matters (siting, scale, external appearance and landscaping) relating to Phase 7 (Spillway and Pipe) and Phase 8 (Remaining areas of hard and soft landscaping) of the Thicket Reservoir development pursuant to Condition 2 of the S73 consent planning reference APP/24/00312 dated 6th December 2024.

Location: Havant Thicket Reservoir Site

Thank you for consulting Environmental Health (pollution) with regards to the above application.

The Statement of Conformity relies upon mitigation measures contained within a Construction Environmental Management Plan, Noise and Vibration Management Plan and Dust Management Plan. These documents do not appear to have been submitted as part of the current RMA application, and it is unclear from the submitted information whether they have been approved and secured through another planning permission or condition applicable to these works. Clarification is therefore recommended to ensure the mitigation measures relied upon in the environmental assessment are appropriately secured and enforceable.

Kind regards,

Craig Milligan

Environmental Health Officer
