

Good afternoon,

Thank you for consulting Portsmouth Water on the above re-consultation,

Construction and Environmental Management Plan & Method Statement produced by Stonebond dated 11th September 2026,

Whilst we welcome the addition of 5 and 6 for silt management our previous comments requesting mitigation measures be based on an “environmental risk assessment”, has not been provided within the updated report. Until this information is submitted for review, we are not in a position to recommend the discharge this condition.

Kind Regards,

Catchment & Environment Team
