

Dear Sirs,

I have just received a notice that there is to be a 86-bed Care Home built on the old Oak Park School Site.

I don't object to the Care Home as it is needed in Havant, and the site was originally due to be built back in the 1980's /90's and access was via Crossland Drive and River Way.
NO ACCESS THROUGH LEIGH ROAD due to the narrow road.

Parking in the surrounding streets would be absolutely horrendous as the current restrictions are NO Parking between 8am - 6pm **(THIS NOT BEEN ENFORCED OVER THE LAST 5 to 10 years)** as I have not seen any enforcement officers in Havant Farm Close.

Also, with the thought of traffic using Leigh Road on a day to day basis the road has 2 immediate hazards after the road was updated to include 2 islands to slow traffic (at what cost????).

Also Stonecroft Care facility who actually offload the disabled in the road NOT in the car park (yet another hazard).

According to the proposed parking onsite only being 27, therefore where are all the staff and visitors parking???

Therefore, we **STRONGLY OBJECT** for the use of Leigh Road for access. **Access should be as originally planned, Crosslands Drive and River Way.**
