

Dear Sirs,I have objections to the planning application ref: APP/26/00574 relating to the Havant THicket Reservoir NW corner, Visitor Centre, Hub and hide.

The bird hide is too small and only for education use with no public access. A dual access hide is needed accessible to families, elderly and disabled who may not be able to reach the hides planned much further away from the car park on the north side of the reservoir.

I also object to the visitor centre being located on a floating pontoon within the wetland conservation area where it will cause more disturbance to wildlife and be more difficult and expensive to run,.

I object to provision of external terraces over the wetland which will increase noise and disturbance to wildlife.

I object to the proposed material change for the forthe facilities to be used at night.
