

Please note I support the Rowlands Castle Parish Council objections against the Portsmouth Water plans for the reservoir. We are already objecting to Southern Water's plans to destroy the original specification for this area. This was meant to be a family friendly recreational asset to the area as a one-off opportunity and due to the greedy intentions of the owners of SW it is becoming a source of financial profit with little residential gain for the immediate population. The least Portsmouth Water can do is follow the best plan for using the few facilities that will be allowed there.

Yours sincerely
