

Hi,

Please take this letter as our firm support of all comments made by Rowland's Castle Parish council in relation to the planning application by Portsmouth Water for the visitor centre at the reservoir.

It's especially very disappointing that PW are trying to open the visitor centre in the evenings . This was never in the plan and is yet another attempt by them to get their own way through stealth by doing this after the initial plans were approved. Apart from the clear impact on the wildlife which has suffered enough already this would be a massive negative impact on all nearby residents. It's obviously a way to make more money with no regard for anyone else and is completely unacceptable.

We sincerely hope that this application will be strongly denied with no compromises agreed.

Regards
