Dear Planning Officer

PLANNING APPLICATION APP/26/00624

I would like to object to the above Application on the following grounds:

The applicant wants to erect a 10 x 20 m low level barn and replace the existing barn and stables. I note from a photograph that there are two new looking stand alone small buildings which I assume are separate stables. Would these be taken down if planning approval is given?

The proposed barn and homes nearly are situated in flood zone 3. The field in question has a history of flooding and if a larger building is to be constructed, this will increase the risk of flooding including the main A3023 Havant Road and nearby homes.

I was unable to submit this using the Public Register which did not respond to the Planning No.

Yous sincerely
