

Good afternoon,

Planning ref: APP/26/00615

Address: Land North of Lavant Drive, Havant, PO9 2EU

This application has been reviewed by Hampshire and Isle of Wight Integrated Care Board (ICB) to assess the potential impact on Primary Care (GP surgery) infrastructure.

Residents of care homes often have complex health needs and rather than visiting the GP surgery for treatment, non-ambulant residents are visited at their place of residence creating additional operational pressures on GP services. Therefore, on this occasion the ICB cannot request a contribution to proportionately increase the existing primary care infrastructure.

The ICB would like to bring to your attention that if there is already sufficient care home capacity within the area then this development could lead to an increase in patients who will have higher than average health and care needs which will place further pressure on GP surgeries in the vicinity of the proposed development.

The proposed care home development is for 86 bed care home, and this will create an estimated population of 86 new residents.

The closest GP surgeries to the proposed development are below and it is envisaged that the residents of the proposed development will register as patients with these practices.

Blossom Health: Bedhampton

Blossom Health: Havant

Homewell Curlew Practice

The Bosmere Medical Practice

This application has been shared directly with the GP surgeries whose patient catchment area will cover the proposed care home, and it is likely that they may choose to respond directly to this application.

Kind Regards,

Mia

LPAE Admin Officer

On behalf of NHS Hampshire Integrated Care Board (ICB)
