For attention of Ms Sheath

Dear Denise

Re: APP/26/00702 At Empower Centre, 47 Botley Drive, Havant, PO9 4PJ

Application for advertisement consent for 1 No. internally backlit illuminated light box fascia sign

Thank you for the consultation on the above application. The Highway Authority would like to make the following comments.

The application seeks advertisement consent for one internally illuminated fascia lightbox sign. Whilst the Highway Authority raises no objection to the proposed location of the sign, further information is required before a recommendation can be provided.

It is noted that the proposed illuminance of the sign has been reduced to 426 cd/m². However, in the interests of highway safety, the Highway Authority advises that the luminance of illuminated signage should not exceed 300 cd/m². As such, the proposed illumination levels should be amended to ensure compliance with the relevant guidance.

The Highway Authority therefore requests that revised details confirming a reduction in luminance are submitted for review. Once this information has been provided, the Highway Authority will be able to provide a formal recommendation on the application.

Yours faithfully,

Thomas Willcox
